

# 2024 GIWA Barley Forum

Monday, 29 July 2024 | The Hub, Bentley WA

The Grain Industry Association of Western Australia's annual Barley Forum provides insight into the WA barley industry - from breeding and variety receival recommendations, through to international markets and post farmgate opportunities.

Hear from key stakeholders on a range of topics and issues impacting the WA barley industry.

## Topics

### Harvest Planning with CBH:

A look at the decision-making process, key considerations and logistics of moving grain from paddock to market, and how this impacts malt barley segregations.

### Global barley market outlook:

Focusing on global market pressures, factors affecting future prices and recent market development activities.

### Industry update: what's in the pipeline?:

An update on the varieties moving through the classification system.

### Breeder discussion - new malting varieties:

A look at the varieties that could be in the marketplace in 2025.

**Contribute to the GIWA malt barley variety receival recommendations** for the 2025/26 harvest.

### Down to Earth Beer:

Rocky Ridge takes us on their journey to becoming Australia's first certified sustainable brewery.

Hear from key industry representatives

Department of Primary Industries and Regional Development
